Coalition Approach

The State Highway 7 Coalition, along with RTD and CDOT, are planning multimodal transportation improvements to optimize regional connectivity and mobility between eight jurisdictions, including three counties, in this rapidly growing and increasingly congested part of the northwest region. Planned regional Bus Rapid Transit (BRT), a regional bikeway, pedestrian improvements, first and final mile connections, and future innovative transportation modes will result in improved safety, multimodal access and faster and more reliable travel times.

By 2040...

- 56,000 new residents
- 38,000 new jobs
- 8,500 to 9,800 projected boardings daily
- 37% TRAFFIC increase
- 50-60% increase on the eastern end of the corridor
- BRT will cut travel time & increase reliability between Brighton and Boulder

Project Funding

- $342M project cost
- $10M funding secured so far
